

May 1, 2017

Dear South End Fitness Center Members, Neighbors and Partnering Agencies,

We're pleased to announce that we will be conducting maintenance and repairs to the pool and pool windows at South End Fitness Center (SEFC), which is operated by the Boston Public Health Commission. Funds for maintenance and repairs, allocated by the City under the leadership of Mayor Martin J. Walsh, will cover the costs of the rehabilitation project, with construction expected to begin sometime in August and take 6 to 7 months to complete. We will continue to update members on the timeline and reopening date as work progresses.

While the pool will be closed during construction, SEFC members will continue to enjoy the basketball court, strength training and cardiovascular equipment, exercise studio, fitness classes, daily-use rental lockers, as well as validated parking at the garage, with the first two hours complimentary.

As a courtesy to existing members, once the pool reopens, BPHC will extend monthly and annual memberships free of charge. Swimmer memberships will be extended to match the number of months that the pool was closed for construction. If for any reason a swimming member will not be able to use the membership in the future, he or she may request a refund by completing a membership reimbursement form. The form can be downloaded from the website, or members may call the SEFC and we will mail you a copy. Please note that reimbursements can take several weeks to process. We are also working to identify alternate low-cost swimming pools in the area and will post information on our website.

While BPHC and the SEFC staff understand that the temporary closure of the pool may be an inconvenience to our members, we hope members understand that the maintenance will improve the pool facility in the long term. BPHC will continue to provide as much information as possible regarding the pool closure. Members may contact the SEFC at (617) 534-5822 or visit the website at <http://www.bphc.org/whatwedo/health-access/south-end-fitness-center/Pages/South-End-Fitness-Center.aspx>

BPHC will host a community meeting in partnership with the Boston Property and Construction Management Department on Wednesday, May 17 at 12 noon and 6:00 pm at the South End Fitness Center, 785 Albany Street, 4th Floor to present the rehabilitation project plan in more depth.

Thank you for your patience and understanding during this time. If you have questions, please visit BPHC.org, or call the SEFC directly at (617) 534-5822.

Sincerely,

A handwritten signature in black ink, appearing to read "Monica Valdes Lupi".
