

Dental Visit During Covid-19

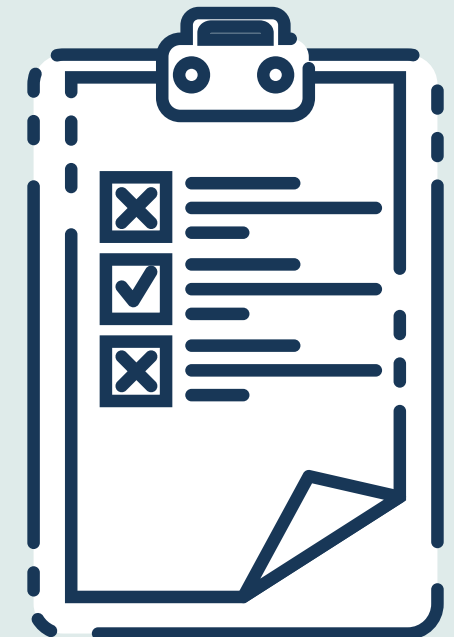

Dental offices are following science-based guidance for infection control procedures to help protect patients and staff.

What to expect at your dental appointment!

Wear a mask when you enter the building.

COVID-19 patient screening form will be given to fill out.

Your temperature will be taken.

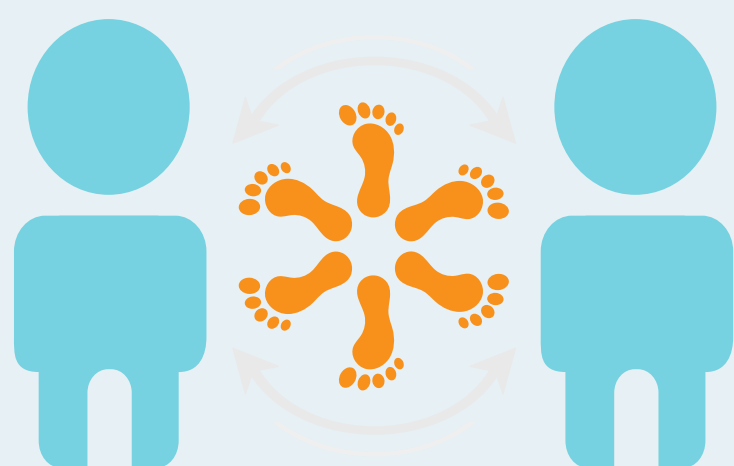

Dental staff may be wearing different protective clothing during COVID-19.

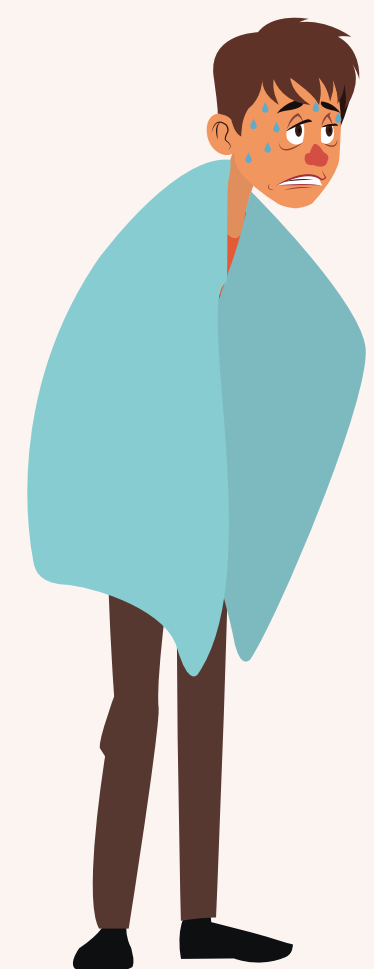

Wash your hands or use hand sanitizer.

Practice social distancing.

Reschedule your dental visit if you're feeling sick.
