South Boston At a Glance: Key Population Characteristics

- **Stable population**: In 2000, the population of South Boston was 29,938, not that different from 29,433 in 1990. South Boston ranks in the lower ½ in population out of Boston’s 16 neighborhoods.

- **Age**: Age distribution is similar to Boston as a whole
  - Slightly higher population 65+
  - Slightly lower population between 0-17 years old

- **Six BHA developments**: 3 elderly and disabled; 3 family; TOTAL number of residents = 5,498
  - Almost 40% of the residents at these developments are Latino
  - Elderly /Disabled: Foley, West 9th St, Monsignor Powers (247 units ranging from efficiency up to 2 BR apts)
  - Family: Mary Ellen McCormack, Old Colony, West Broadway, (2,568 units ranging from 1 BR up to 6 BR)
Lots of English Speakers: English is spoken at home by 83% of South Boston residents as compared to 67% for Boston overall.
- 5% of South Boston residents speak a language other than English at home: e.g., Russian, German, Polish, French, Italian, and other Indo-European languages.
- Spanish is the language spoken at home by 7%, and Chinese by 2% of South Boston residents.

Increasing racial diversity: Growing numbers of Black, Asian and Latino residents live in South Boston.

Increasing ethnicity: Europe 3% (including Ireland, UK, Italy, Poland, Russia, Ukraine, and other Eastern European countries); Asia 3% (including China, Southeast Asia); Caribbean 4% (including Dominican Republic and Haiti).

What Can You Do to Prevent Lung Cancer?

- Don’t smoke
- If you do smoke, try to quit
- Eliminate second hand smoke
BPHC Health Initiatives

- **Cancer program** – Screening and education about cancer
- **Steps to a Healthy Boston** – Walking groups, smoking cessation
- **Smoke-Out Campaign**
- **Substance Abuse Services** – Treatment for alcohol or substance abuse
- **Health Connection Van** – Screening for skin and prostate cancer, education about all forms of cancer
- **Mammography Van** – Screening for breast cancer
SUBSTANCE ABUSE
Substance Abuse Treatment Admissions by Year: Boston, 1996-2004

NOTES: An individual client may be admitted to more than one program or treatment session. Data shown are for fiscal years July 1996 through June 2004.

DATA SOURCE: Massachusetts Department of Public Health, Bureau of Substance Abuse Services, Substance Abuse Management Information System (SAMIS)

DATA ANALYSIS: Boston Public Health Commission Research Office
Gaps in access to Boston detoxification centers & follow up care

- Hundreds of people turned away weekly
  - Only 140 community-based beds available; including hospital-based beds, Boston now has 189 left of the original 311 beds.
  - According to a BPHC survey of detox centers, we estimate 250 people a week are unable to find a bed

- Uninsured individuals face extra challenges
  - 78% of failed attempts to access detox centers were by the uninsured
  - Of the 140 community-based beds, only about 38 are available for the uninsured

- Emergency room visits related to substance abuse have increased in last 3 years
  - People unable to go to community detox end up in ERs which are $2,400 more expensive than hospital inpatient care for a 3 day stay

What Can Be Done To Prevent HIV/AIDS?

- Before having sex, educate yourself
- If you do have sex, do it safely:
  - Talk with your partner and know their sexual history
  - Use a latex condom every time you have anal, vaginal, or oral sex
  - Never reuse condoms
- Don’t share needles and syringes used for injecting drugs or for body piercing or tattooing
- Talk to your health care provider about the risk of HIV infection and whether you should be tested
