## Child Safety Tips For The Car

### 1 Car Seats

Keep kids safe on the road, be sure they ride every time in a properly secured child safety seat that is appropriate for their size.

1 

Use REAR-FACING SEATS in the back seat from age 0-1 year at least 20 pounds

2 

Use FORWARD-FACING TODDLER SEATS in the back seat from age 1 and 20 pounds to about age 4 and 40 pounds.

3 

Use BOOSTER SEATS in the back seat from about age 4 to at least age 8, unless 4'9" (57 inches) tall

4 

Use SAFETY BELTS at age 8 and older or taller than 4'9" (or 57 inches). All children age 12 and under should ride in the back seat.

Call 617-343-6891 to schedule a free appointment with a child passenger safety technician to install or check that your child's car seat is installed properly

### 2 Buckle Up

When adults wear seat belts, kids wear seat belts! Set a good example & BUCKLE UP for every ride.

### 3 Keep Toys Away

Toys can injure your child in a crash, so be extra careful to choose ones that are soft and will not hurt your child.

### 4 Don't Leave A Child Alone In The Car

Don't leave a child alone in a car, even for a minute. The temperature in your car can rise quickly & cause heatstroke in the the time it takes for you to get back to your car.
